

Minutes

Board meeting

DATE

October 30th

TIME

15:00 PM

MEETING CALLED TO ORDER BY

Guilherme Amaral

IN ATTENDANCE

Gabriel Santos, Guilherme Amaral, Francisco Albergaria, João Gaspar

TOPIC

- Sprint
- Task distribution
- API
- Database

BOARD

Gabriel and João while developing the API noticed a possible issue in the designed architecture and pointed that out. Guilherme called the meeting to discuss how the presentation should go, to review the pull requests, issues, and work done this sprint. Pointed out the importance of having the database prioritized and done as soon as possible so that we can test the API. Redistributed tasks in order to implement everything needed. Francisco and Guilherme showed the front-end progress until now.

DESCRIPTION

João talked about asking to delay the presentation a bit due to an exam he would have the very same day. Documentation in Rest API. Authentication was debated amongst all the members. Guilherme, who was in charge of the database informed us on how things were going, and we planned the communication between the Rest API and database.

TODO

- Front end
- API
- Containers
- Database
- Correct architecture
