

# Minutes

## Board meeting

### DATE

November 9th

### TIME

14:00 PM

### MEETING CALLED TO ORDER BY

Guilherme Amaral

### IN ATTENDANCE

Gabriel Santos, Guilherme Amaral, Francisco Albergaria, João Gaspar

### TOPIC

- GitHub correction
- Task division
- API parameters discussion
- Database changes (saved data)
- Authentication
- Documentation refactoring

### BOARD

Guilherme called for the attention of when now we delete a car, it stops being associated to the owner, instead of tagging it with a deleted flag. During the meeting Gabriel helped correct some mistakes made in GitHub, with issues and pull requests.

Gabriel and Gaspar proposed a documentation refactoring, instead of Javadoc's, to make it look prettier.

Francisco kept the whole team updated on his front-end progress.

Guilherme / Gaspar suggested a refactoring in the API's endpoints, he suggested normal parameters and body parameters, instead of URL.

### DESCRIPTION

In terms of comprehension of API endpoints, they could be made simpler. Although João pointed out some problems with Guilherme's idea.

Gabriel corrected the issues template.

### TODO

- Endpoints refactoring
- Documentation refactoring
- Front-end
- Database documentation
- Authentication
- Web Tokens

### NEXT MEETING

To be called upon...
